

Regarding changing to LPFM, if this supercedes or receives priority over stations heard on FM Translators such as AIR 1, I strongly object. It is of great service to us and our community to have AIR 1 broadcasts available as it provides an alternative for parents, myself included, for our children to hear that reinforces values and beliefs supported by the AIR 1 broadcasts.

It is obviously too expensive for a broadcaster such as AIR 1 to then begin transmitting through multiple LPFM stations to reach its equivilant audience, thus terminating their service.

In addition to supporting local values with AIR 1 broadcasts, AIR 1 also provides a unique Natioanl perspective that would be compromised if the LPFM service is enacted, again to the detriment to our local community.

Please consider these points, and I ask that you do not supercede or re-prioritize broadcasts with LPFM service, but allow the continuance of FM Translators such as AIR 1.

Thank you for your consideration,
Lance Gomez
